Prenticius.

The violent faction South and the violent North are twin brothers. Like Romans and Remus, they suck the same wolf.

We read of the man who had "three crowns" in him. Our neighbor of the Courier has quite too much crow in him.

A Washington letter says that Forney is a great favorite with the ladies. Oh, he is a "Duck" of a man.

This first recorded victim of trichinae was Herod. "He was eaten of worms and gave up the ghost."

If a man tells you he is "a good egg," don't forget to inquire after the health of the old hen.

Now reading speeches recently delivered in Virginia, we conclude that Wise speeches are all foolish.

Nature is no more God than a written page is the writer.

Many people are so fond of patriotism that they keep all their patriotism strictly to themselves.

The honest confessions that husbands and wives make to each other are home-truths.

If we do not understand the history, nature, and proper methods of cure of the cholera, it will not be for a lack of a variety and abundance of treatises on the subject. The most serious difficulty is that the unprofessional reader is likely to get his ideas terribly confused by the conflicting theories of different writers, and to abandon all investigations of the matter in blank despair.

Mr. Spencer is the leading author of the famous Spencerian system, and the only one in the country who has adopted it throughout the country as the standard of education. His reputation is world-wide, and he stands unrivaled in the field of penmanship.

H. C. Spencer, his assistant, is well and honorably known here, as a teacher of penmanship, has no equal in this city.

His assistants are thorough business men, and valuable additions to the faculty.

No dependent teacher will be employed.

The new College is to be the most important part of the book-keeping course. Here the student applies his theoretical knowledge to the practical work of preparing accounts, paying labor, and other necessary expenses incidental to the development of the country.
